

Solutions For Better Life

Hi-Tech Aqua Enviro Systems Pvt. Ltd.

Water Treatment & Environment Systems Specialists

Clarification Unit

Filtration Unit

Softening Unit

About Us

The organization is into the water treatment business since 1996 and has provided various high technology solutions for treatment of water for Process , Power and Infrastructure segment and now it has grown into a professionally managed organization not only catering to water but also providing solutions for treatment of waste water (Tertiary and Zero Liquid Discharge systems).

Today the organization consists of following companies :

Hi-tech Aqua Enviro Systems Pvt Ltd. : Solution provider for Water and Waste Water Treatment Systems.

Hi-tech Aqua Systems : Provider of Fabricated products, components related to Water and Waste Water treatment , Spares and Chemicals.

Hi-tech Aqua Services : Provider of services related to supervision of Installation and Commissioning of Water and Waste Water Treatment Plants.

Infrastructure

The Company has highly experienced Design and Project Management team.

The in-house Design team has capabilities in the fields of process, piping, electrical & instrumentation engineering.

We are well supported by like-minded associates for our fabrication, erection and automation work for quick completion of the project, thereby becoming **Client's Preferred Partner** for Water and Waste Water treatment requirements.

De-Mineralization Unit

Ultra Filtration Unit

Reverse Osmosis Unit

Dosing Pumps

Pressure Vessels

Resin

Technologies / Systems

We provide following Technologies / Systems (Manual / Semi-Automatic / Automatic) for treatment of Water and Waste Water.

- Pre-treatment (Clarifiers, Clariflocculators)
- Media Filtration (Sand, Activated Carbon, Iron Removal , Manganese removal etc.)
- Ultra-filtration
- Micron Filtration
- Softening
- De-mineralization
- Reverse Osmosis
- Electro-dialysis
- Chemical Dosing Systems
- Ultraviolet Systems
- Water for Dialysis
- Mineral Water Plants
- Water Management solutions for Housing and Commercial complexes.
- Packaged Sewage treatment Plant
- Effluent Recycle (Tertiary treatment)
- Zero Liquid Discharge Systems

Industries Served

The above solutions are provided to following Industries but not limited to :

- Steel / Mining
- Power
- Textile
- Petrochemicals
- Chemicals
- Paper & Pulp
- Food & Beverages
- Hospitals
- Institutions
- Pharmaceuticals
- Brewery & Distillery
- Engineering Industries

Other Services

The company also distributes and supplies water treatment components and spares for new as well as existing water and waste water treatment plants.

All the above solutions are backed by efficient services from highly skilled and experienced team.

Cartridges

Membranes

Ultra-Violet Water Sterilizer

**100 m³/hr Primary Clarifier
(Pre-treatment) for Steel Industry**

**10 m³/hr Automatic DM Plant
for Engineering Industry**

**50 m³/hr Ultra-filtration for Textile Industry
(ETP recycle-tertiary system)**

**1 m³/hr RO Plant (Potable water)
for Commercial Complex**

**6 m³/hr RO Plant for Packaged
Mineral Water Unit**

**35 m³/hr RO Plant for Chemical Industry
(ETP recycle-tertiary system)**
